

Seminar by ROTTO Guwahati on 12th August' 17 at Dispur College Guwahati .

Regional Organ and Tissue Transplant Organisation (ROTTTO) organised an organ donation awareness program at Dispur College, Guwahati on 12th August 2017. The staff members and students of Dispur College attended the program. In the session a lots of useful information regarding organ and tissue donation was given to the audience. There are lakhs of needy patients who are in need of organs like kidney, liver, lungs and are dying daily due to lack of sufficient organs. This gap between demand and supply can be cut short only by donating organs following brain stem death, said Dr. Rajeev T.P (Prof. & Head, Dept of Urology, Gauhati Medical College Hospital & Nodal Officer, ROTTO Guwahati). One deceased donor can save upto 9 lives and improve the quality of life of 50 other needy patients. The need of the citizens, media as well as NGOs to come forward to promote the awareness on organ donation among the public of this region is very important, said Dr.Sasanka Kumar Barua (Associate Prof. of Urology, Gauhati Medical College Hospital).

It was a well organised and well attended interactive session. More than 50 students and teachers attended the programme and got the vital information was given about the Noble Cause of Organ Donation. At the end ROTTO Guwahati, gave the special thanks to Dr.Mousumi Devi (Co-ordinator, Yoga and Meditation Cell) and Dr. Joyjyoti Goswami (Co-ordinator IQAC) ,Dispur College for all the arrangements for this successful event.
